

Measuring Guide for Scarves

Tools and Tips

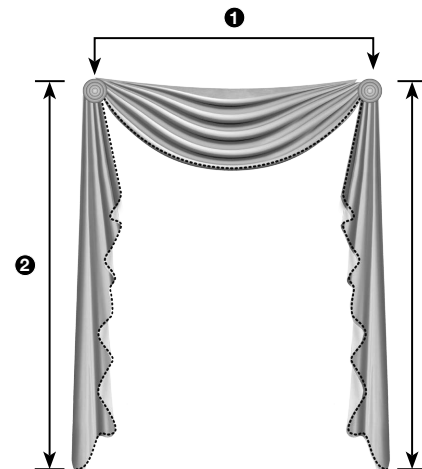

- Steel tape measure — do not use cloth tape
- Pencil
- Round measurements to the nearest 1/8"

1/8"
1/4"
3/8"
1/2"
5/8"
3/4"
7/8"

Measuring Guidelines

- 1 Measure width of window, plus the amount the scarf is to extend to the wall.
- 2 Measure the distance you want the scarf to drop down on the left and right sides.
- 3 Add these figures together to get the approximate scarf length (round up to the nearest full inch).
- 4 Add 18" - 30" if planning to loop the scarf around the curtain rod or drop it in the center

- 5 If going to the floor with one or both sides and wish to puddle the ends of the scarf, add an additional 6" - 10" per side.
