

TASK: Replace Pull Types on Cordless Shades

Use If/When: Shade has the incorrect pull type or pull is not centered

Tools Needed: N/A

Various pull type options:

1. Remove hem bar end cap. Slide existing pull type from hem bar.

2A. For **hem grip**, slide new hem grip on hem bar.

2B. For **pull rings**, untie rings and tie new rings onto lift cord.

TASK: Replace Pull Types on Cordless Shades

Use If/When: Shade has the incorrect pull type or pull is not centered

Tools Needed: N/A

2C. For **tassels**, untie knot on one of cord and slip off all components (Tassels & Washers). Slide on new components, see next step to tie a figure 8 knot.

2C continued. Tie the cord into a figure 8 knot.

2C continued. Pull Both ends of cord tight to secure knot.

3. Slide metal washer into bottom channel to center of shade, then insert end cap.
